INTERLOCKING LOG CABINS

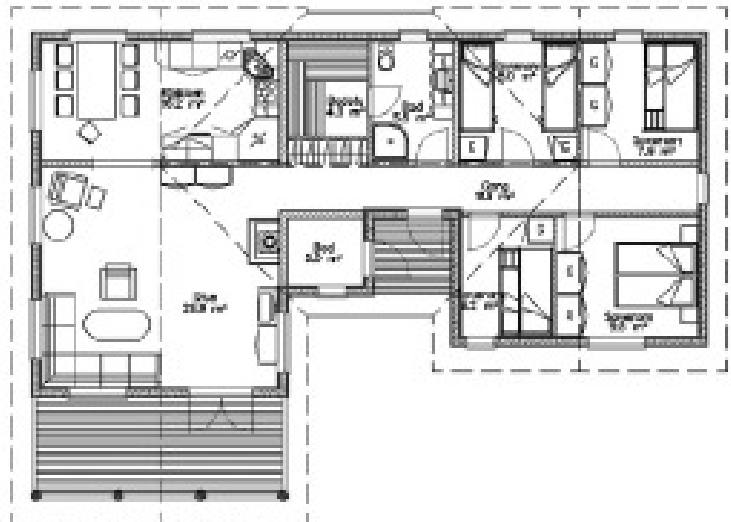

The Juniper

The Juniper is one of our largest single story cabins and it's excellent design utilises almost all the space available and enables the living space to be separate from the bedrooms.

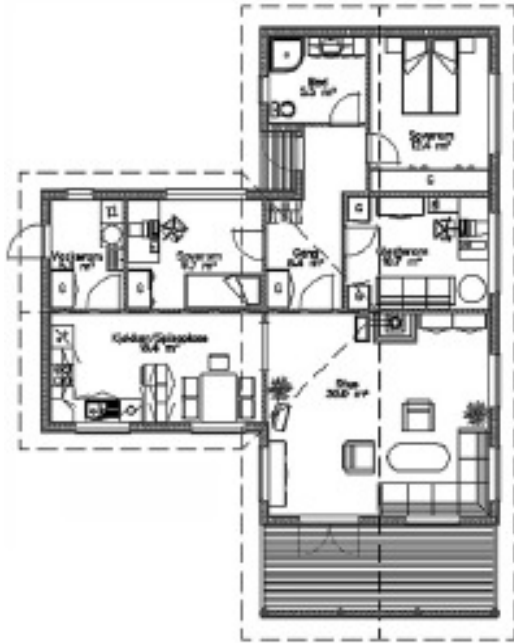

Juniper 1 living area 119.1m²

A large log cabin with four good sized bedrooms. The cabin has all facilities including a large amount of storage space, and utility room.

INTERLOCKING LOG CABINS

Juniper 2 living area 112m²

This cabin was designed for a couple with children, with a guest room and spacious living. This cabin has storage space and utility room, also there is great potential for expansion.

Juniper 3 living area 119.1m

This cabin is a newly developed cabin for the client that requires even more space. The roof construction allows for expansion in any direction along with the large overbuilt terrace which has space for outdoor living and such things like a hot-tub or barbeque.
